

User 1 – Female, Graduate Student
Continue to select your mood

Unsure what to do when see search results

Is this my history or show history

Not sure what the random button – not sure what it does.. mood

Liked idea of creating some sort of preference – overall concept

Didn't like – buttons in menus seem a little confusing on it – random button not clear

Maybe random be a mood choice

Seem easy

Way to offer user feedback to the results

Not sure what it is exactly

User 2 – Male – Graduate Student

Had difficult finding how to add a TV show to his favorites.. keep looking inside the TV show area for favoriting the event

Unsure where history was – did not see the buttons on the bottom pane

Unsure how to erase complete history – did not understand until saw the settings pane → not sure what the frequency means – clarify this option for users

No idea what the random button does??? Explain

User 3 – Male – Undergrad Student

1. Trouble figuring out what the continue button means after typing in city/state and TV provider
2. Not sure initially how to find favorite until shown there are buttons on the bottom
3. Difficult to erase favorites → thought you could remove them all in the favorite pane → had to go to settings

Like

Easy to navigate

Dislike

Buttons vague of functionality → What does random do?!!

User 4 – Male – Undergrad Student

1. Trouble finding the favorite

2. Did not understand initially how to remove all history – had to go to settings – saw this eventually

Liked idea of tv shows by mood

Did not like not be able favorites easily

Random – unsure!

User 5 – Male – Graduate Student

1.

Leading people on – research procedure was wrong – not suppose to use terms related to the interface – must imply anything about the interface

Unsure what the frequency percentage means → elaborate more

Random button makes no sense

Need a title for Television provider should not be this

Favorite difficult

Search function looking for where to add favorites

Did correct functionality for this
